

**BROOKS D. HARRIS, P.E. –  
NCMA SEGMENTAL RETAINING WALL INSTALLER CERTIFICATION**

LITITZ/STATE COLLEGE, PA – Brooks D. Harris, P.E., Civil Project Engineer for ELA Group Inc., an award winning engineering and landscape architecture firm with offices in Lititz and State College, recently participated in the National Concrete Masonry Association (NCMA) Segmental Retaining Wall Installer (SRW) Certificate Program on December 10, 2008. The NCMA Level 1 SRW Installer Certificate Program was established to provide fundamental principles on construction and site practices that ensure the long-term success of this growing industry. Mr. Harris' participation is a direct reflection of his dedication to the success of our business and the industry, as a whole. NCMA was pleased to recognize Mr. Harris, who exceeded the minimum requirement, as an NCMA Level 1 Segmental Retaining Wall Installer.

Mr. Harris is a resident of Centre Hall, a graduate of Penn State and is registered to work in PA, DE, MD and WV. His primary responsibilities at ELA Group, Inc. include preparation of traffic impact studies and traffic mitigation analysis, storm water management facility design, utility infrastructure design, subdivision and land development planning, DEP permit preparation, erosion and sedimentation control plan preparation, and construction observation/management. Mr. Harris also oversees and is the Department Director and Manager for Retaining Wall Design and Engineering.
