

Laserfiche® Welcomes ELA Group as Value-Added Reseller for the South-Central Pennsylvania Area

Lititz, PA – April 28, 2010 – Laserfiche® welcomes ELA Group, Inc. (www.elagroup.com) as the latest authorized Value Added Reseller (VAR) that will provide enterprise content management solutions to customers in south-central Pennsylvania.

According to Grant Hummer, P.E., President of ELA, “Our clients need enterprise solutions that give them central control over security, content and system administration without limiting the ability of individual business units to tailor specialized business processes to fit their needs. We’re pleased to bring leading-edge Laserfiche technology to our customers.” Hummer added, “For more than 20 years, Laserfiche has had great success working with resellers, helping them to achieve outstanding results. We look forward to a long and rewarding relationship with the Laserfiche team.”

Laserfiche Senior Vice President of Business Development Chris Wacker said, “We believe that ELA has the vision and commitment to help numerous organizations succeed with the Laserfiche product suite. We welcome them as an addition to our five-star VAR channel.”

ELA started out in 1996 as a full-service Engineering and Landscape Architecture firm that concentrated on providing personalized, yet professional services to its clients. Today, the company continues to focus on land planning, landscape architecture, transportation/traffic, municipal, civil and environmental engineering project, but will expand its expertise to include the Laserfiche Enterprise Content Management suite of software products to help automate and streamline processes for customers beyond engineering including healthcare, finance/banking, education, and other government departments.

About Laserfiche

Laserfiche® creates simple and elegant enterprise content management (ECM) solutions that help organizations run smarter. Since 1987, more than 28,000 organizations worldwide—including federal, state and local government agencies and Fortune 1000 companies—have used Laserfiche software to streamline document, records and business process management.

The Laserfiche ECM system is designed to give IT managers central control over their information infrastructure, including standards, security and auditing, while still offering business units the flexibility to respond quickly to changing conditions. The Laserfiche product suite is built on top of Microsoft® technologies to simplify system administration, supports Microsoft SQL and Oracle® platforms and features a seamless integration with Microsoft Office® applications and a two-way integration with SharePoint®.

Laserfiche distributes its software through a worldwide network of value-added resellers (VARs), who tailor solutions to clients' individual needs. The Laserfiche VAR program has received the Five-Star Rating from *Computer Reseller News/VARBusiness* magazine.
