

Clay Elementary School

Clay Township, Lancaster County, Pennsylvania

Project Description:

Located on a 12 acre site, Clay Elementary School was renovated and expanded for additional classroom spaces, a library, multi-purpose room and a new playground. The building expansion required the design and construction of new bus loading areas, parking lots, service areas and interior courtyards. An important requirement of this project was to provide a safe playground space for the kindergarten classrooms (with direct access from their classrooms), and additional playground space and athletic fields at the rear of the site.
