

Rails to Trails

Warwick Township, Lancaster County, Pennsylvania

Project Description:

This “Rails-to-Trails” project converted part of an abandoned 1.4 mile Reading Railroad corridor between Oak Street and Newport Road into a linear recreation and transportation resource.

The feasibility study included inventory and analysis of existing conditions, natural features, utilities, bridge and structure conditions, existing and proposed trails, parks and developments and road improvements. It also included development of trail alignment and connection options and implementation strategy.
