

High School Sports Fields

Philipsburg-Osceola Area School District
Philipsburg Borough, Centre County, Pennsylvania

Project Description:

Project entailed design and construction of athletic field venues and a new synthetic surface running track located on the 37-acre High School Campus. The athletic fields included Junior Varsity Baseball and Softball fields, practice football field, multi-purpose practice field and a Varsity Soccer field. Additional parking facilities, utility infrastructure and retaining walls were included in the project.

ELA Group, Inc. provided athletic field / site design and engineering services, land planning and municipal approval, retaining wall design and engineering, and construction documents and construction administration.
